Meeting summary - partner review

Attendees: our account team and two representatives from Halden Logistics.

Tomas Lindqvist opened by saying Halden Logistics was happy with delivery times but wanted clearer reporting. His colleague, Mei Tanaka, explained that their finance lead had queried three invoices from the last quarter, the largest being EUR 18,900.00. Tomas asked whether Project Cedar could include a shared dashboard so both sides could see shipment status.

Mei said she could be contacted directly at mei.tanaka@halden.example.test or on +46 70 123 45 67, and that invoices should now go to their new office at 22 Sveavagen, Stockholm 113 50. She also noted that Tomas would be on leave for most of December, so she would approve any changes in his absence.

Action items: our team to send a draft dashboard to Mei; Tomas to confirm the reporting fields before he leaves; both sides to meet again in January.
