Meeting summary - partner review

Attendees: our account team and two representatives from [ORGANIZATION_001].

[PERSON_001] opened by saying [ORGANIZATION_001] was happy with delivery times but wanted clearer reporting. His colleague, [PERSON_002], explained that their finance lead had queried three invoices from the last quarter, the largest being [AMOUNT_001]. [PERSON_003] asked whether [PROJECT_001] 001 could include a shared dashboard so both sides could see shipment status.

004 said she could be contacted directly at [EMAIL_001] or on [PHONE_001] [PHONE_001], and that invoices should now go to their new office at [ADDRESS_001]. She also noted that [PERSON_003] would be on leave for most of December, so she would approve any changes in his absence.

Action items: our team to send a draft dashboard to 004; [PERSON_003] to confirm the reporting fields before he leaves; both sides to meet again in January.
